

Evolution, Ecology, & Population Biology (EPPB)

2010-11 Student Seminar Series. Thurs 4pm. Reb. 322

Date	Speaker	Institution	Seminar title
9-Sep	Dr. Charlyn Partridge	WUSTL	How short-term exposure to environmental contaminants can impact long-term evolutionary processes
16-Sep	Matt Schuler	WUSTL	Evidence of the hydra effect in a terrestrial mammal
23-Sep	Dr. Andy Goodman	WUSTL	New perspectives on an enduring partnership: functional studies of the human gut microbiota
30-Sep	Dr. Jonathan Wilson	Caltech	Environmental and ecological insights from the physiology of extinct plants
7-Oct	Dr. Hal Caswell	Woods Hole Institute	The population-level effects of climate change: demographic approaches and how they work
21-Oct	Dr. Heather Lawson	WUSTL	Context-dependency of genetic effects at pleiotropic loci
28-Oct	NO SEMINAR	NO SEMINAR	NO SEMINAR
4-Nov	Pu Huang	WUSTL	Phylogeography of Asian wild rice: insights from the sequence tagged sites
11-Nov	Dr. Jan Salick	MBG	Himalayan climate change and ethnobotany
18-Nov	HOLD	Nat Acad Sci	Ruth DeFries, EPSC seminar
2-Dec	Lauren Woods	WUSTL	Diversity patterns in aquatic metacommunities
9-Dec	Katie Reed	WUSTL	
20-Jan	Dr. Shalene Jha	Berkeley	
27-Jan	Kristin Powell	WUSTL	Synthesizing the effects of plant invasions on diversity across spatial scales
3-Feb	NO SEMINAR		Canceled due to weather
10-Feb	Dr. Kendi Davies	Colorado-Boulder	Does spatial heterogeneity explain the scale dependence of the native-exotic diversity relationship?
17-Feb	Dr. Dong Wang	Stanford	
24-Feb	Dr. John Poulsen	Woods Hole Institute	
25-Feb	Elizabeth Atkinson	WUSTL (Friday Seminar)	The genetics of primate brain gyrification, diet and your microbial communities
3-Mar	Steve Kroiss	WUSTL	What limits the establishment of rare species: A comparison between infrequent and widespread species in restored Ozark glades
4-Mar	Dr. John Thompson	UCSC (Friday Seminar)	The assembly of networks of coevolving species
10-Mar	Kate Waselkov	WUSTL	Agricultural adaptation and gene flow in the Midwestern weed waterhemp (<i>Amaranthus tuberculatus</i>)
24-Mar	HOLD	Yale	Pasko Rakic, Victor Hamberger seminar
31-Mar	Nic Kooyers	WUSTL	Ecological mechanisms of maintaining polymorphism in cyanogenesis genes
7-Apr	Genevieve Croft	WUSTL	
14-Apr	Jane Kenney-Hunt	WUSTL	
21-Apr	Shih-Chung Hsu	WUSTL	Rice Gone Weedy MMXI: Has de-domestication in weedy rice occurred?
28-Apr	Amy Conley	WUSTL
