

## Evolution, Ecology and Population Biology Seminar – Fall 2017, Thur. 4pm, Rebstock 322

<i>Date</i>	<i>Speaker</i>	<i>Title</i>	<i>Affiliation</i>
September 7th	Zhen Peng	Biological Functions of Codon Usage Bias and Their Impact on Evolutionary Biology	WUSTL EEPB
September 14th	Kim Sukhum	Evolution of Brain Size in Weakly Electric African Fishes	WUSTL EEPB
September 21	Dave Duvernell	Ecology and Evolution of a Topminnow Species Complex	Missouri University of Science and Technology
<b>September 28th</b>	<b>No seminar</b>		
October 5th	Gerardo Camilo	Bee Diversity in the City: Environmental and Social Drivers	Saint Louis University
October 12th	Peter Stevens	What do we (Think we) Know About Angiosperm Evolution	Missouri Botanical Garden
October 19th	Toby Kellogg	Adaptation and Diversity in Ecologically Dominant Grasses	Donald Danforth Plant Science Center
October 26th	Karen DeMatteo	Carnivore Conservation in Misiones, Argentina	WUSTL Environmental Studies
November 2nd	Andrew Gonzalez*	Diversity, Stability and Evolution of Ecological Networks	McGill University
November 9th	Tyler Larsen	TBD	WUSTL EEPB
November 16th	Aimee Dunlap	Components of Change and the Experimental Evolution of Learning and Innate Bias	University of Missouri St. Louis
<b>November 23rd</b>	<b>No seminar</b>		
November 30th	Dipti Nayak	TBD	University of Illinois - Urbana-Champaign
December 7th	Sara Wright	Three years in Clover: Lessons Learned Mentoring Undergraduates in Eco-Evo Research	WUSTL EEPB

\*Student-invited speaker
